Soldo

From £Free/active card/month.

Integrated with Xero, QuickBooks Online, Sage and other accounting systems, **Soldo** is a spend management solution that enables businesses of any size to capture receipts, monitor data and generate reports.

Soldo claims that before **Soldo**, tracking and controlling spending was a dark art: businesses created workarounds for payments and stifled staff with financial admin.

The app combines prepaid company cards with a comprehensive management platform. It enables staff to make all the purchases that may be necessary in the course of their work, be that software, travel expenses, or advertising, and these transactions can be tracked in real time. Through **Soldo**, businesses can also set custom budgets to control their costs.

Soldo connects with your accounting software to automate the reporting, saving you time and providing insights to inform your decisions.

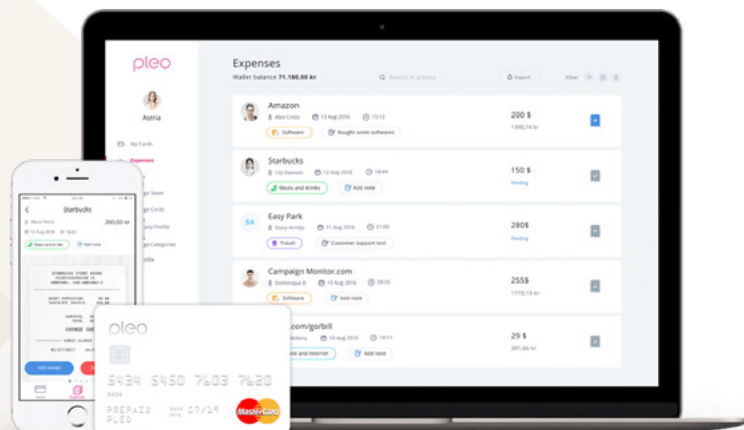

Pleo

From £6/active card/month.

Pleo is a complete company payment solution used by small and medium sized businesses across a variety of sectors.

Pleo allows businesses to distribute payment cards to employees for purchasing products on behalf of the company. It integrates directly with accounting systems and provides a real-time overview of company spending, flexible card limits, and automatic expense categorisation.
